HEALTH, SAFETY AND ENVIRONMENTAL POLICY

It is the policy of FORO Energy Inc. to take all reasonable steps to safeguard the health, safety, and environment of all our employees, contractors, customers and others who come into contact with our products and services around the world. FORO Energy Inc. strives to ensure that all activities conducted in our premises and at our customer's work sites are managed in such a way that foreseeable risks are eliminated or mitigated.

Key Objectives

In support of our health, safety, and environmental policy, we have set the following key objectives:

- To set, communicate, and ensure that a series of health, safety, and environmental standards are achieved in all of our operations.
- To encourage the adoption of health, safety, and environmental best practices in all of our operations to deliver on our commitment to continual improvement on health, safety, and environmental management and performance.
- To communicate our standards to our employees and others impacted by our operations.
- To prevent injuries and cases of ill health.
- To protect the environment from harm.
- To comply with legal and other applicable requirements.
- To monitor the performance of our business
- To make our policy available to interested parties from our website.

We will review our policy and standards at least annually to ensure that they remain relevant to the nature and scale of FORO Energy Inc. operations and risks.

All employees shall observe this policy, under the direction of Management and the guidance of the Safety Coordinator and supervisors.

Paul Deutch
President & CEO
